Overview

Improve the performance of individual studies and your entire portfolio, by monitoring these clinical trial milestones from a single dashboard:

- Study design approved
- First regulatory submission
- First site activated
- First subject in
- 50% sites activated
- 50% patients enrolled
- Last subject in
- Last subject out
- Database lock

Track Key Milestones with the Study Summary Dashboard

With easy access to performance insights, study managers can identify issues earlier, solve problems sooner, and design future studies more effectively.

Ensuring that important milestones are reached on time has a huge impact on the cost and performance of clinical trials. Missed milestones tend to build up on one another, extending clinical trial timelines by months and even years.

Saama's Study Summary Dashboard helps study managers stay on top of site performance and enrollment at every stage. By seeing everything you need to see in a single view, you'll identify issues sooner and solve problems faster so your studies can stay on track.
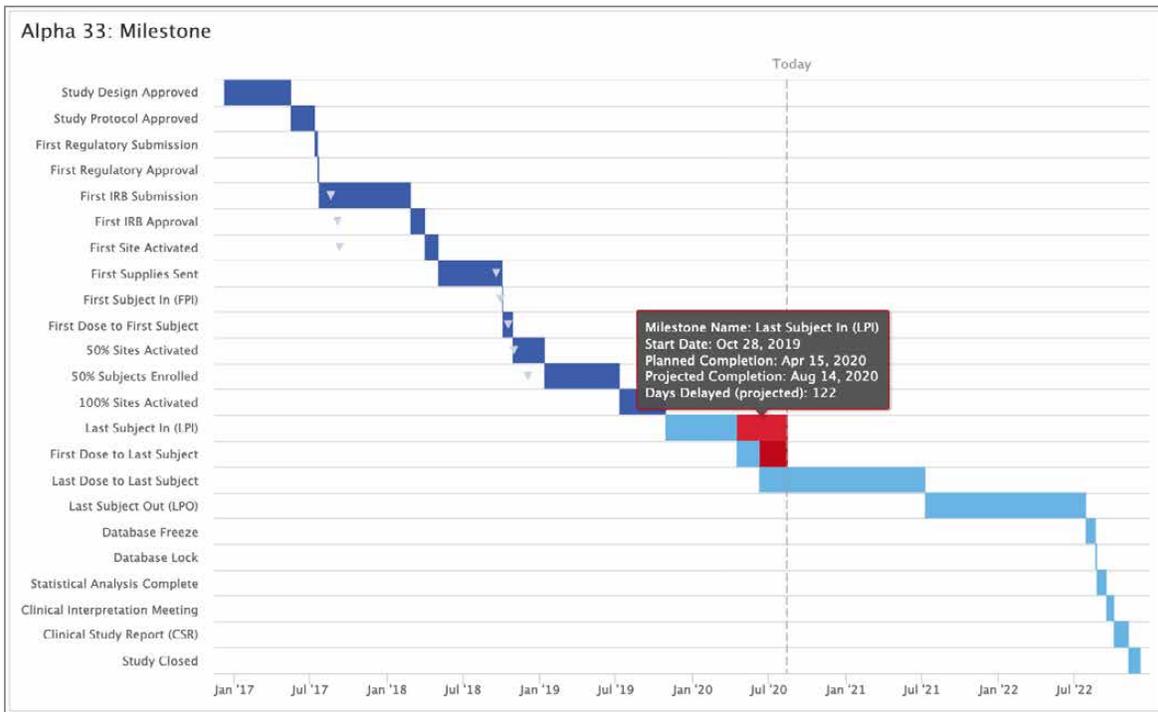

The Study Summary Dashboard in Action

The Study Summary Dashboard gives study managers a variety of powerful capabilities. Views can be configured to show the study parameters that matter most, such as site activation, enrollment status, and the number of subjects screened.

Study Name	Therapeutic Area	Phase	Start Date	End Date
Alpha 33	Oncology	II	12/8/2016	--

Site Activation		Subjects Screened		Enrollment	
Planned Total	62	Planned Total	295	Planned Total	210
Planned To Date	40	Planned To Date	295	Planned To Date	210
Actual	64	Actual	346	Actual	187

Milestone Achievement over Time

See how your study is progressing at a glance, with current and potential delays highlighted. Hovering over milestones shows detailed information, including estimated completion dates and reasons for delays.

Site Activation and Enrollment

Monitor site activations and enrollment over time and get optimistic, pessimistic, and realistic forecasts if actual results fall behind plan.

Get Started Today

By tracking site activation, enrollment, and other important clinical study milestones, you'll improve the performance of your current and future clinical studies. To start using the Study Summary Dashboard, contact your Saama Customer Success representative today at **info@saama.com** or **408-371-1900**, or visit us online at **saama.com**.

About Saama Technologies, Inc.

Saama is the #1 AI clinical analytics platform company, enabling the life sciences industry to conduct faster and safer clinical development and regulatory programs. Today, 50 biotech companies—including many of the top 20 pharmaceutical companies—use Saama's award-winning Life Science Analytics Cloud (LSAC) platform to accelerate more than 1,500 studies. LSAC's rich applications facilitate unprecedented and authoritative oversight of comprehensive clinical research data, enabling companies to file New Drug Applications (NDAs) more efficiently and bring drugs to market faster.
