Custom Solutions and Services

Proven to Accelerate Your Research

35% reduction in time to data discovery
with Data Hub

Saved 20,000+ hours of manual work
with Smart Data Quality (SDQ)

Up to 50% time savings for SDTM transformation
with Source to Submission (S2S)

How Saama Applies AI/ML to Your Data

Saama uses AI/ML to…

- Aggregate data
- Spot missing or duplicate data
- Write queries
- Map complex data
- Identify adverse events
- Spot potential early withdrawals
- …and more

Life Sciences Employee

A human is always in the loop to approve or reject AI/ML outputs.

Our AI/ML Models Are Ready Today

It takes time to accurately train new AI/ML models. Saama has already put in the work, so you don't have to.

20+ Publications	**90+** AI/ML Models	**8** Patents
8+ Years of AI/ML Research	**16** Dedicated AI/ML Researchers	

Only Saama Can Accelerate Your Trials from Day One

AI/ML models take years and millions of data points to train accurately. Unlike competitors who are just now investing in AI/ML, Saama has 8+ years of AI/ML research with 90+ models trained for life sciences on over 300 million data points. This allows Saama to deploy models into your study environment, out-of-the-box, today.
